

## Nexi & Polskie ePłatności Graduate Program 2023

Are you looking to **kick off your career journey**?

Do you like the idea of joining one of the **leading FinTech companies in Europe**?

If so, you are at the right place!

We are looking for graduates who want to join our company as entry-level professionals with a **permanent full-time contract** and create their **unique career journey** with us. With a presence in more than 25 countries and a growing team of 10,000+ employees, we offer you the opportunity to start your career with one of the largest European leaders in digital payments. You will have the opportunity to **rotate between different departments**, be guided by an **experienced mentor** and generate impact by working on **real business cases**.

We offer you that and much more.

### About the program

Our Graduate Program is more than a learning path - it's a journey where you will work on real business cases and directly impact business results.

Join us if you are interested in work experience in one of the following departments:

- **IT, Digital & Tech**
- **HR / Legal / Environment, Social&Governance**
- **Finance / Strategy**
- **Product Management & Engineering**
- **Customer Experience**
- **Sales & Marketing**

### Program Overview:

- You will start the **12-month program** in September 2023 with **two rotations** between the different business departments, which will provide you with a better understanding of the business from different perspectives
- As of the start of the program, you will be offered a **permanent position** in one of the business departments
- You will have an **experienced mentor** to guide and support you throughout the program
- You will continuously learn and improve your skills by actively participating in well-structured **training sessions** at our Nexi Group Academy
- You will develop your business ideas, implement them and build **your network of stakeholders** within a group of highly skilled business leaders from all over Europe.

## What makes you the perfect candidate for this program?

If you recognize yourself in the following description, you should do the first step and apply:

- You have graduated with a **master's degree** within the last 18 months or are about to graduate in 2023 in one of the following fields: **Engineering, STEM, Economics & Business or Law**
- You are a **career starter** with no more than 1.5 years of working experience
- You are **fluent in English** (any additional language is beneficial) and can easily imagine working in an international environment and actively collaborating with colleagues from all over Europe
- You feel confident in the **digital environment** and can quickly adapt to all the digital tools you need for your education and daily tasks
- You are committed to your work, have an **exciting university career** with **proven great results**, enjoy learning new things, feel confident to own projects by yourself and like being part of a team
- For you, formal training is a starting point - you **always look for more** and want to make a difference in everything you work on.
